

Sipromac 250

Sipromac tabletop vacuum sealers are your go-to for small to medium-sized food products. They can be used to extend shelf life, to preserve and add flavour, or to allow for easy storing and shipping. Great for performing the job quickly and efficiently. Tabletop sealers fit where you need it, whether that is in your catering kitchen or in the back of your butcher shop.

The Sipromac 250 is made from stainless steel, features a Busch 8m³/h (0.75 hp) pump, (1) 12.5" seal bar, and a digital control panel that can store up to 20 different programs.
